Our Aims

We are committed to work with clients to ensure total patient satisfaction.

Our Priorities

Through our dedication we aim to provide the best dental solution for our clients and ultimately the patient. With customer care, quality service and solid technical back up, the company is recognised as a first class provider of dental services.

When Roy Walton founded the company in 1974 his vision was to produce high quality restorations. This is our Vision which we aim to achieve by providing high level of staff training, using traditional and advanced techniques and implementing ISO 9001 and DAMAS quality standards.

MHRA Number: CA000162
