

## Personal Shade Match

Appointment: \_\_\_\_\_

- Please do not wear make-up, especially lipstick, as this may influence the shade of your teeth.
- The appointment will take between 10 and 20 minutes.
- This involves taking a photograph of your teeth and discussing your requirements.
- The technician will draw a diagram of your teeth detailing the shades and characteristics.
- The technician will then make your individual restoration by hand according to your dentist's prescription and your Personal Shade Match.
- The technician may ask you to return to us, so that the work can be checked, before the fit appointment with your dentist. This will depend upon the complexity of your case.
- Our charges will be invoiced to your dentist and you will not be required to make any payment directly to us.
